

Fastcom® FSCC and SuperFSCC Family Errata Sheet

We cannot guarantee that our products will work in every system and application.

Date Added	Description
11/11/2019	When using ITF, there are 8 clock cycles of IDLE HIGH before ITF takes effect.
04/08/2021	In Windows 8+, Fast Boot causes the SuperFSCC and FSCC family to restart in a bad state.
